Pizza Panic (2017)

Senior Film project at SCAD in 2017. Was responsible for overseeing the whole project, but focused on creating a film with dynamic moving cameras. There were no storyboards created for this film. Instead I created a rough layout film from scratch, which is presented during this segment of the demo reel on the left. (0:04-0:48)

Coco Scene Recreation (2019)

A personal project I began working on in the Fall of 2019. I recreated a deleted scene from the Disney-Pixar film Coco using rigs and models I found online. I am in the process of re-creating this sequence with a better character model for the boy, (1:31-2:24)
